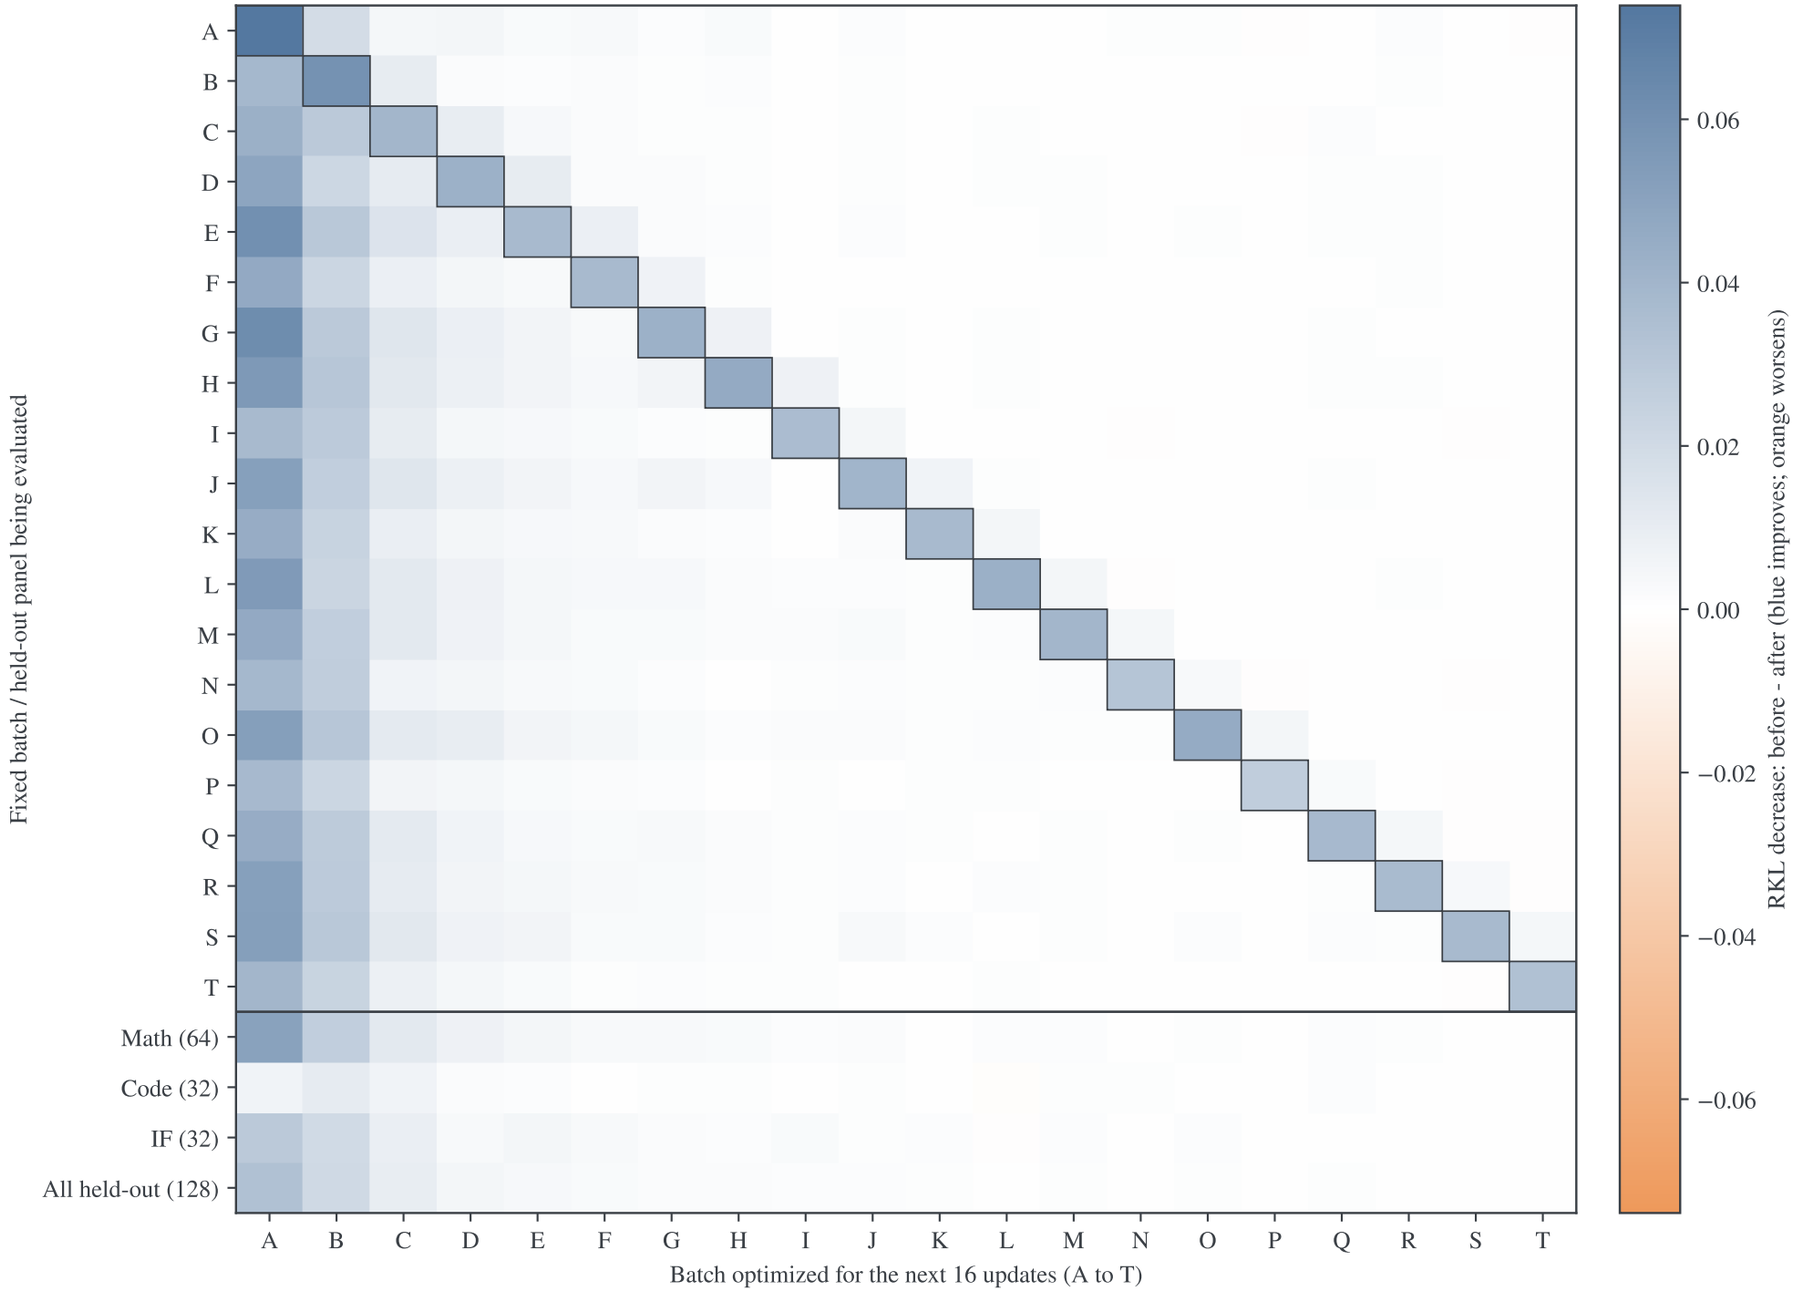
Tulu-3-8B-SFT teacher to Llama-3.2-3B-Instruct student

Effect of each training block, 0-320 updates



Outlined diagonal: current training batch. Earlier rows: already-seen batches; later training rows: not-yet-seen batches.

Bottom four rows: fixed held-out domains and their pooled summary. H1024; frozen states; one training seed.

Cells are descriptive absolute risk changes, not significance tests. All held-out overlaps the three domain rows.
