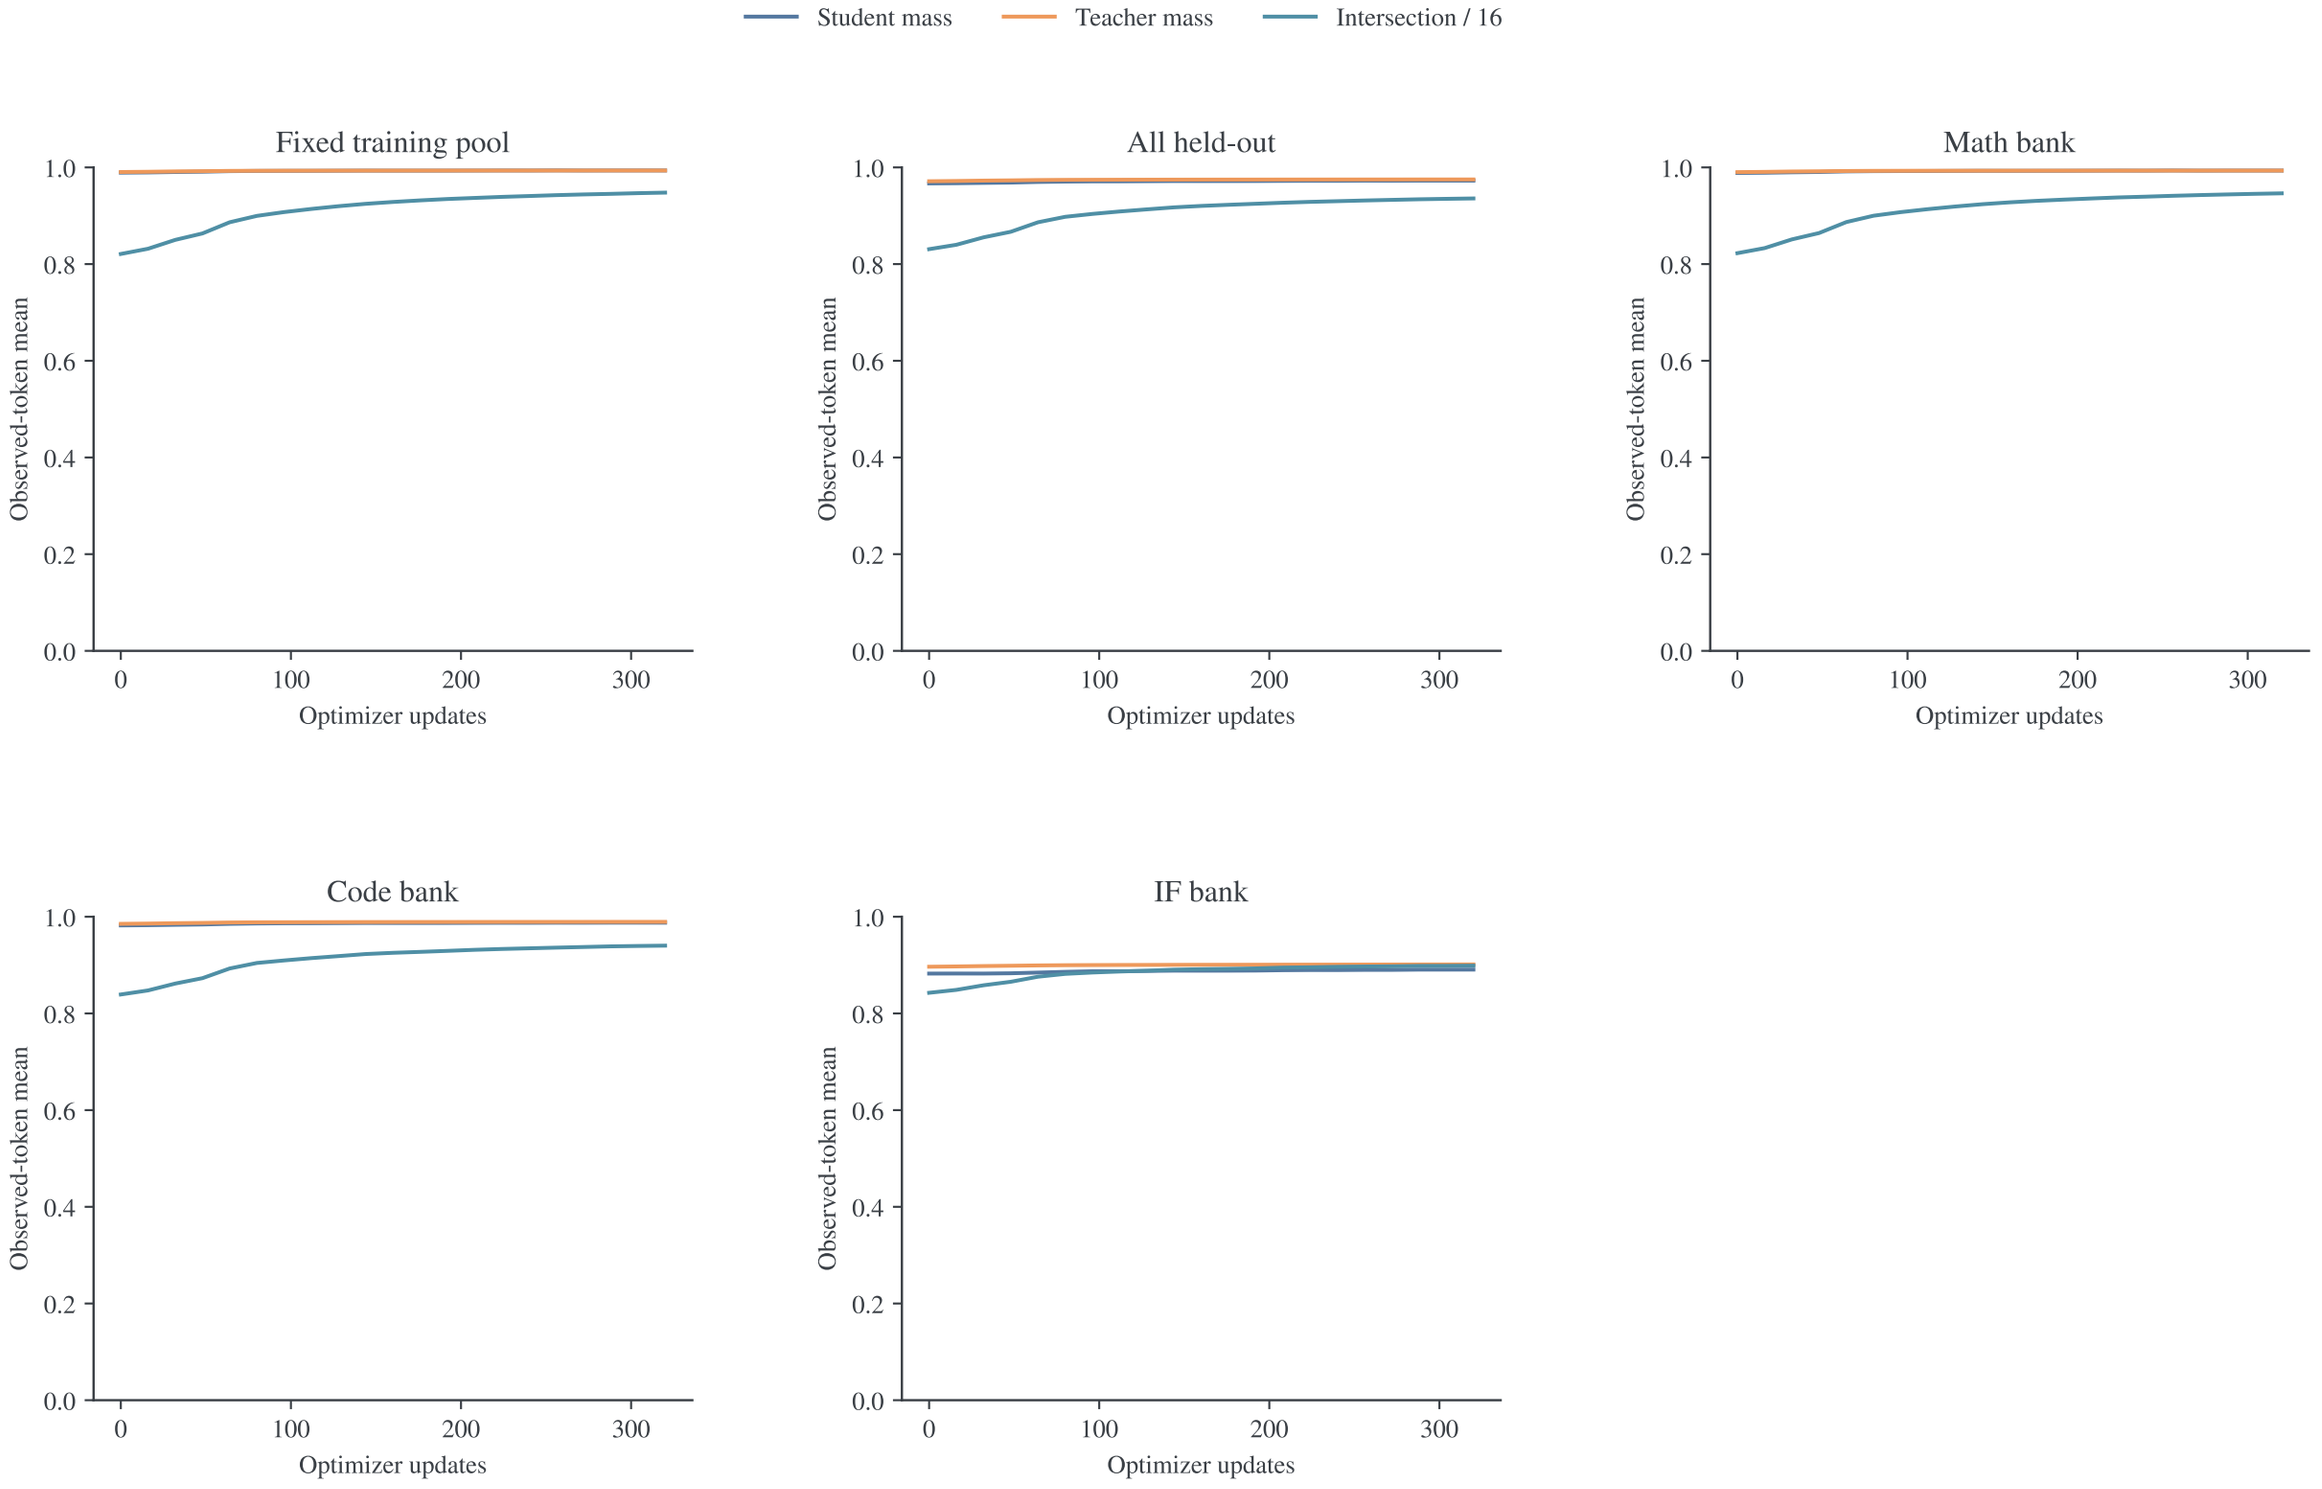
JustRL-DeepSeek-1.5B -> DeepSeek-R1-Distill-Qwen-1.5B

Top-16 shared probability mass



P16 and Q16 rank logits; shared mass sums probabilities on P16 intersect Q16. Count overlap is not probability mass.

First pass only; no repeated-batch round. Same size does not establish direct ancestry.

R1 reasoning prefix; native_deterministic_fa2_from_initial
