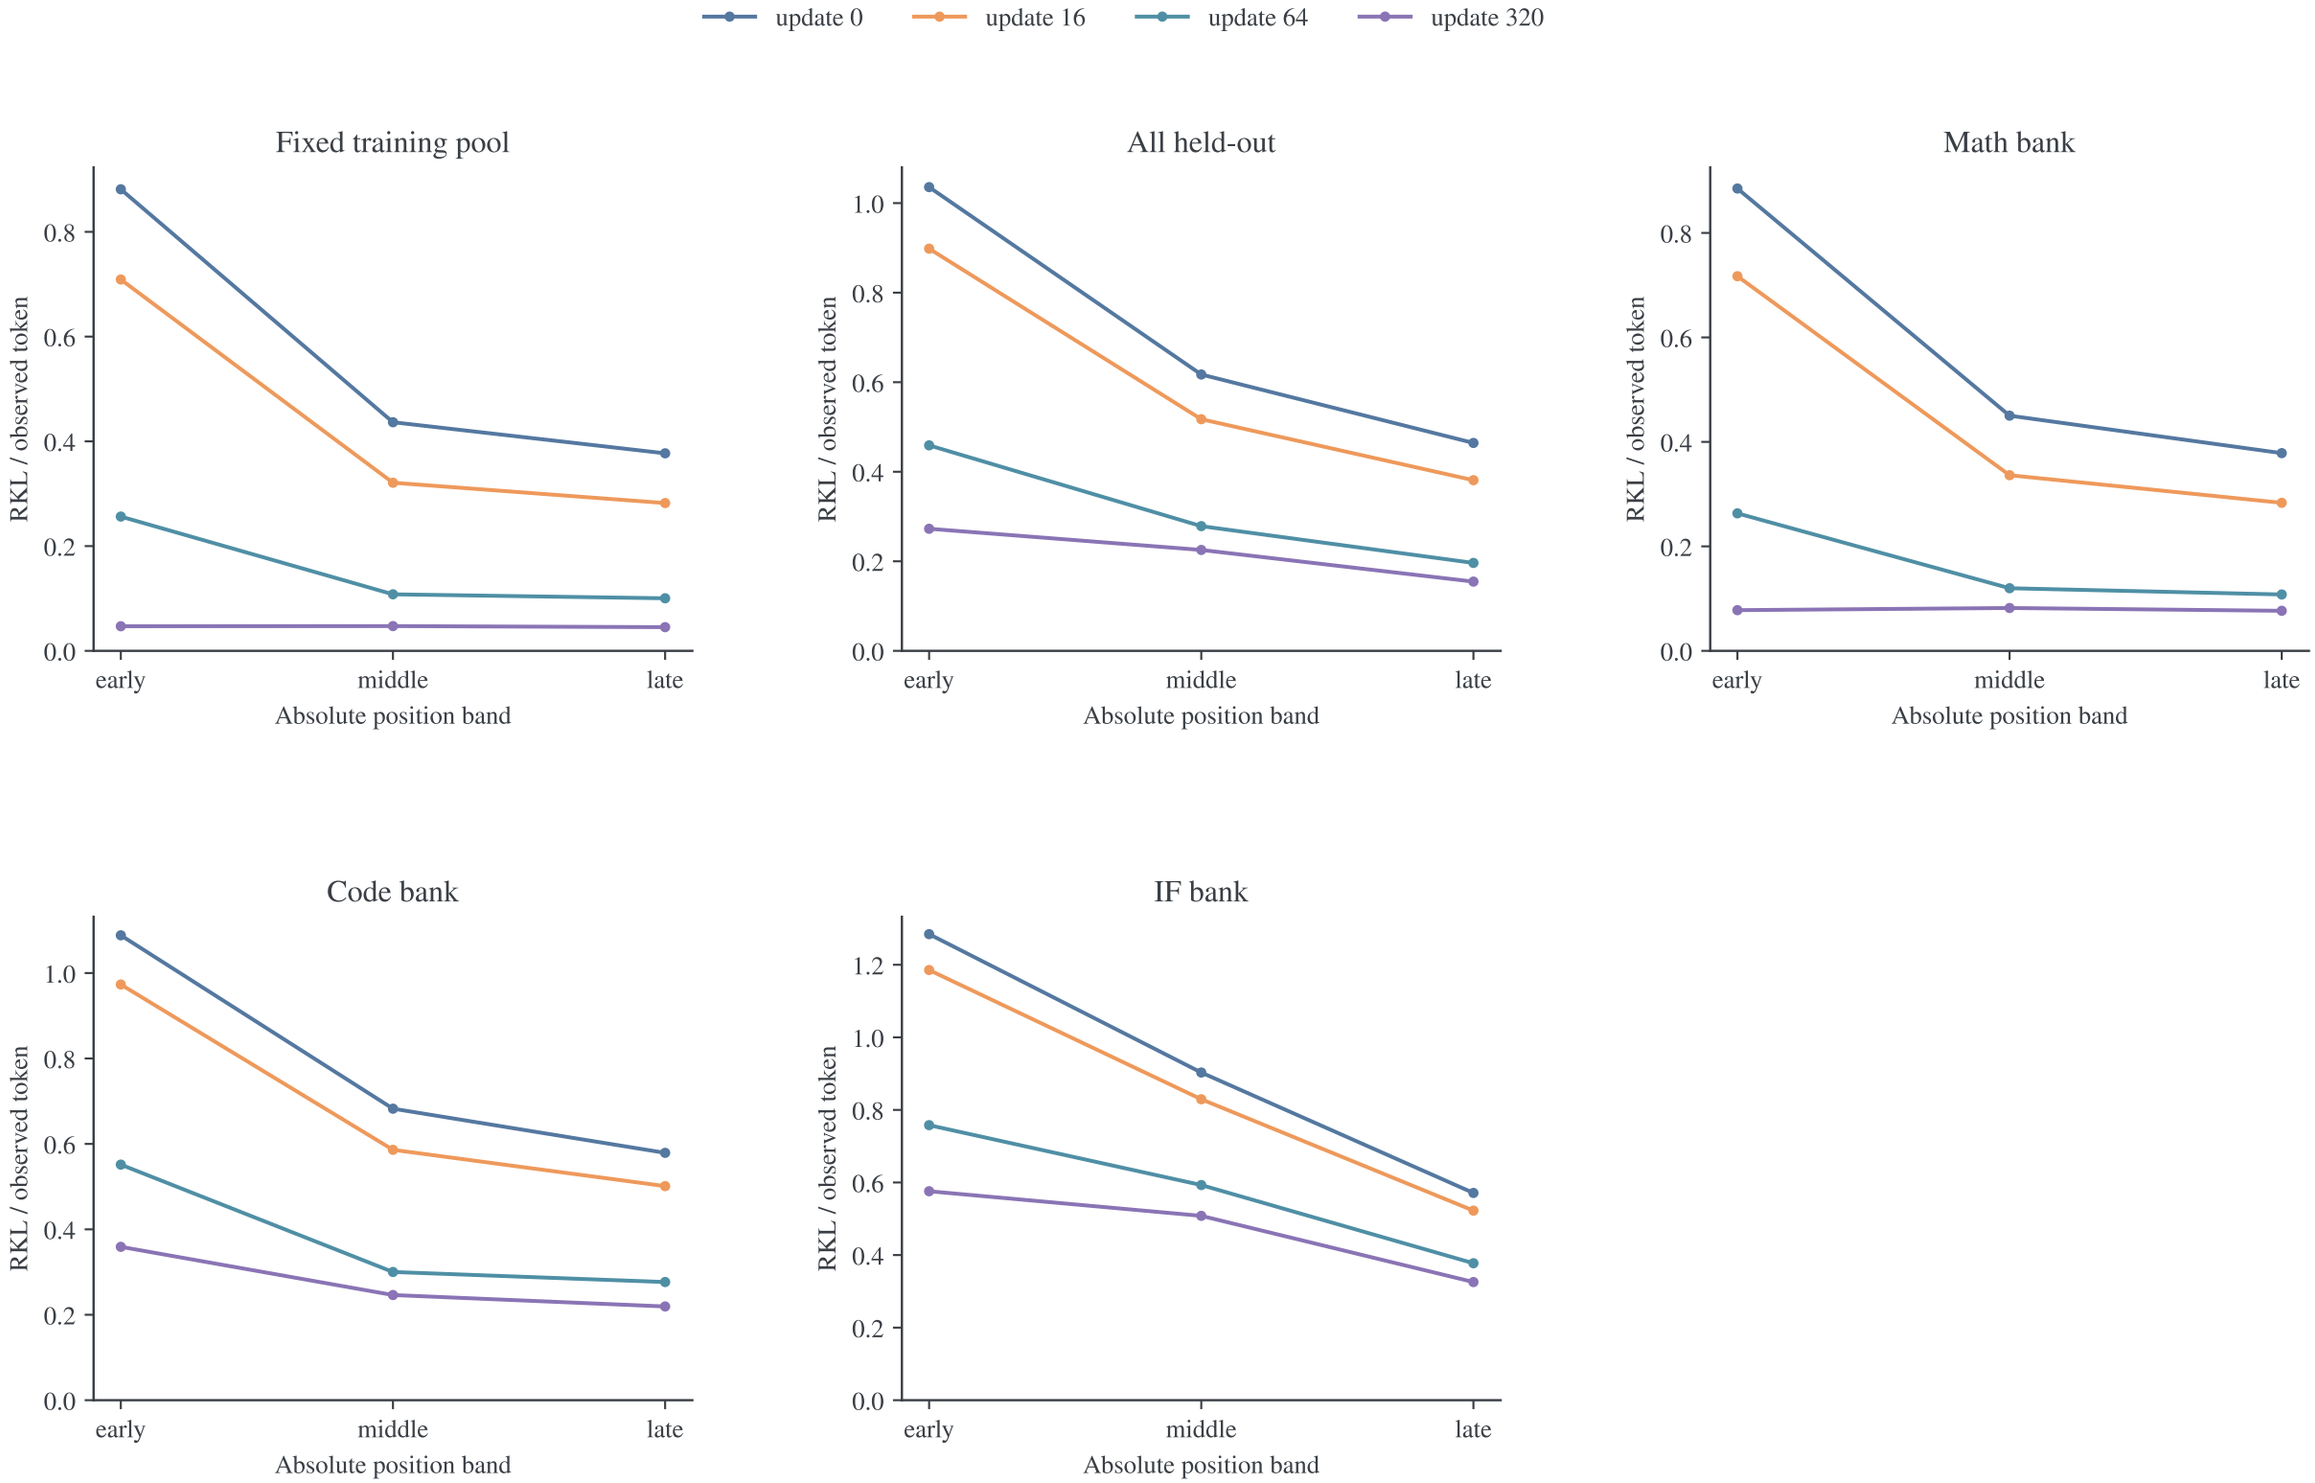
Qwen3-1.7B-SFT / Thinking-Space -> Qwen3-1.7B

RKL: position profiles at saved checkpoints



Profiles at saved updates; early=0-255, middle=256-511, late=512-1023. Equal categorical spacing does not imply equal token spans.

First pass only; no repeated-batch round. Same size does not establish direct ancestry.

post-trained dual-mode; thinking input; native_old_thinking
