

Figure 8. MOPD on DS-distill-7B (student) with Light-R1-14B as the math expert and Polaris-7B as the science/IF expert, evaluated on four math benchmarks (AMC2023, AIME2024 (Horizon 2), AIME2026, OlymMATH-en-easy). Solid lines are MOPD runs at math/science-IF data mix ratios Light-R1-14B/Polaris-7B $\in \{8/25, 1/1, 25/8\}$; the dashed orange line is single-teacher OPD with only the math expert Light-R1-14B; the dashed grey line marks the science/IF expert Polaris-7B's own math accuracy.
